We have a good selection of factory made “bisque” ready to be glazed—some ideal for children to paint on, and other more grown-up pieces.

After you have painted your item we will add a transparent glaze and fire them in the kiln for you to collect later.

Most of our Bisque is priced between £7 and £10. We have just a few larger and more detailed pieces which are more expensive which we can show you if you are interested but our cupboard is full of items that are very pleasurable to decorate at reasonable prices. Some examples are on our website.

In the photo, the “pebble vase” costs £7.50, while the other two are £7 each. We find that people who want to add detail to their pieces can take an hour or more on the £7 pieces so this is a lovely inexpensive way to while away an afternoon.

If you want to make it a bigger event and bring a group, just book six places to have the whole studio to yourselves—bring your own wine or cake for a celebration that could cost less than £50 all-in with free tea and coffee thrown in! If you want to bring a group you may want to paint themed pieces, or all paint the same, or all paint part of a set (a set of personalised plates for example to use at a family event). Just talk to us in advance!

Fired items will be ready to collect one week after your visit.

When the last one of something has been used up we will usually replace it with something different so that our bisque cupboard will always contain new things for regular painters. With a few weeks notice we may be able to source particular things you would like to paint—just talk to us.

Prices start at £7.

You can pay using PayPal or by card via our website. In that case please pay for a £7 item and if you choose something bigger you can pay the balance on the day. Alternatively we take cards and cash at the studio.

Please book ahead.

Please phone or email to book. Don't assume your place is booked until you get confirmation from us, so chase us if you don't hear back!
