90minute sessions at each of these times
If these times don't suit, it is worth phoning
to see if you can come at another time—
quite often the answer is—yes!

We have a good selection of factory made “bisque” ready to be glazed—some ideal for children to paint on, and other more grown-up pieces.

After you have painted your item we will cover it in transparent glaze and fire it in the kiln for you to collect later.

When the last one of something has been used up we usually replace it with something different so that our bisque cupboard always contains new things for regular painters. With a few weeks notice we may be able to source particular things you would like to paint—just talk to us. In particular if you want to bring a group you may want to paint themed pieces.

Most of our Bisque is priced between £7 and £10. We have just a few larger and more detailed pieces which are more expensive which we can show you if you are interested but our cupboard is full of items that are very pleasurable to decorate at reasonable prices. Some examples are on our website.

Cost
